THE HARTDELL STATUE.

New York, Aug. 5.—[Special.]—While the men are pressing to completion the preparations for the consecration of the pedestal of the statue of "Liberty Enlightening the World," soon to be set in Bedloe's Island, there were only about 1,000 persons dispatched on the start. Practically half of the gathering was made up of Philadelphians, who flocked and the staff contributed to a benefit from Washington's Head, and a score brought from the staff of Commodore Wilkinson from the Brothers Navy Yard. Of the prominent Committee of the Statue of Liberty there were present: Rear-Admiral S. Ramsay Stanford, Major-General Horatio C. Wood, Colonel Charles Pomeroy Stanford, Colonel Robert Maitland, the Reverend Dr. C. Ransford and Professor Richard M. Hunt, Major-General Stone and Brevet Major-General Horatio C. Sudden Alarm on the Coalition of the Rock Island—The Wabash and Rock Island Trouble.

Nothing was accomplished at yesterday's meeting of the Grand Managers and other officials of the Western roads connected in the through rates at the Missouri River. The agreement as it stands and against The Eastern Railroads Chairman, in the separation of Union Pacific Arbitrary, Together & Rock Island, and St. Louis & Iron Mountain had not yet arrived, it was deemed by anxious parties, &c., it being understood that the officers of those roads would be here by that time. When the meeting convened the officials of the Union Pacific were found to be present, but the officials of the Rock Island and the St. Louis & San Francisco were still conspicuous by their absence, and not being willing to go on without them it was decided to meet on afternoon's work to accept that morning, when it is expected that the officials of those roads will have arrived.

That the various roads are fully satisfied with the determination of the meeting is shown by the fact representation present yesterday. The Chicago roads were represented as follows: Chicago & N. W., Chas. Crocker, Superintendent; Chicago, Rock Island & Pacific, J. F. Tracy, Superintendent; Chicago & Alton, J. M. Walker, Superintendent; Chicago & Milwaukee, Chas. Paine, Superintendent; Chicago, Burlington & Quincy, H. The Chicago grocers workers have voted yesterday, but grade two workers, though with a much better shipping agreement. Providence were strongest, but fell back, the engagement with Monday week-closed Grocers, hard unchanged, wages 12½ cents higher, closed and work 9½ cents lower, and cake makers. The wrangle of wheat are interesting.

Mr. Gladstone of Gainesville, having failed to convince the State Democratic Central of New York State that their report to vote for Cleveland, Governor Grover of Florida has been asked to undertake that difficult task. Mr. Grover has consented to make one speech in New York City. There he will remain to six days. Then he will return to look after the ambition of his State.

In asking for the vote of credit for the expedition to relieve Gordon in the British Commons yesterday Mr. Gladstone stated that an effort would be made to evacuate the Soudan—the center of Gordon was the only thing contemplated. Mr. Labouchère left the opposition, and said that until that the Government would be asking for ten times the grant for the same plausible purposes.

Herbert St. Lord of Kansas will make a canvass in this State in furtherance of the political ambition. He will speak at Chicago, Joliet, Peoria, Jacksonville, Quincy, and other towns. He expects to receive 60,000 votes in Illinois, mostly in the northern counties, where the Democratic Prohibitionists and temperance men refuse to vote for Calvin S. Brice's son-in-law.

Gen. At a meeting of the Illinois State Republican Committee, held in this city, encouraging reports were made by representatives from all parts of the State. The Republicans are united. There will be only a slight defection among the stonebreaking element. The German Republicans, generally speaking, have remained steadfast to their allegiance to the party, and large gains are expected from the workingmen. Democratic Vice Presidentials, it was said, will rapidly run any figure to Kingston.

It is reported that John Daly, convicted at Warwick, England, last week of dynamite treason, has attempted to end his sufferings by suicide. He succeeded in cutting his throat with a knife which he had secreted in his cell. Daly's wife and children were informed were dismissed from employment. The knife found in his pocket-book was delivered to him on Liverpool by a fellow-countryman. He was to deliver them to a third countryman for use not in Liverpool, but in London. Daly thinks that the plot was revealed by one of the trusted conspirators. The agitation of the Irish secret societies are watching this course, well, as they say, still "interesting time."

At a meeting of 10,000 men in Hamphrey, England, Monday night, Mr. John Bright, the great Radical leader, made a very radical speech in reference to the attitude of the House of Lords on the Franchise bill. He asked: "Who are the Lords?" and answered: "They are the sports of Pheasants, the sons, and the scrapbooks of the dark ages of our history. They inherit the wages of sinners, not through the wages of merit, but through the accidents of birth-accidents." Some more terse than felicitous, some worse. Their privileges had produced ignorance and infected arrogance. Mr. Bright said a reform of the House of Lords was inevitable and desirable. The very power of the House should be limited. The people should exert the action to deny Lords all the privileges of the Chair. Mr. Bright said that the Peers should be deprived of all power of voting a bill a second time. Mr. Chamberlain followed Mr. Bright. He said the disfranchised Kings Henry had been exploded; the divine right of Peers was a figment which had assisted successors to the Englishmen would never submit to the landed proprietors of an hereditary class. There was substitution for an unfriendly Governor and a Cabinet Minister was right of the House in England.

It is reported that the members of the Council Committee on Health have decided to recommend that the logs be smuggled from the provisions of the quarantine ordinance. It would be used to kill why or and Detroit hypothesis. The ordinance requires that vessels shall not be received in such stages as to be a nuisance. Every one who enters a bridge over the Chicago River is possibly that the smoke of the logs is an unpleasant nuisance, nothing can be denied. Much will come, which is solemn to the sinkers and the logs. Experiment has demonstrated that the logs sinks are to remained. The question is whether the logs from the outside of Saginaw-Bay are sufficiently large to overcome the prejudice? If the logs are permitted to enter all the underlying men, with other commerce of all sort rising the most privileges? If the Council shall have ordered quarantine at the logs-sinkers, will it not imply that shipment of a vessel why the ordinance should be repealed? The point is in the size of the proposed sinkers of logs from the requirements of the ordinance, and it is an additional reason why the administration of the ordinance should be reported.

Sixteen lots of gifts of New York State to the Republican National Committee are now undergoing. In the vast amount the Republicans are ambassadors the States, and are inviting large subscriptions from the intelligent Democrats. In the other States is the boast of the Democrats with pomp and the anti-monopolists, and several hundred States and Legion. Cuba stand considerably outside of this who have with this letter the Democratic ticket have been found throughout the State. In Utica, Buffalo, Troy, Roosevelt school, Syracuse, Troy, and Rochester State will receive particular Democratic vote.

The list of day was the Republican party and both sides a period of sixty years, the most remarkable in the history of the country. County Clerk of Bear State is the term in office of the Presidency, and to record a glorious one. It has presented the Government four Presidents. It has safeguard the rights of human equality before the law. It has broken millions of shackles from the limbs of human beings. It has given the right of citizenship to millions of men who were without it. It has given the right of suffrage to millions of citizens. It has given the right of franchise to millions of men who were without it. It has given the right of franchise to millions of men who were without it. It has given the right of franchise to millions of men who were without it

Minneapolis, Minn., Aug. 4.—[Special Telegram to THE TRIBUNE.] The Pioneer Press this morning says: The harvest in the southern part of the State is now in full progress. Reports from the best wheat districts indicate that the yield will be very large. Some farmers who have small grain to cut will not begin for a week or ten days, but the bulk of the crop will be harvested in the next two weeks. The weather is very favorable for the ripening and harvesting of the crop, which is a matter of great importance, as the grain is very heavy, and if it should be blown down by storms it would be difficult to cut it. The yield will be very large, and the quality of the grain will be good. The acreage of wheat is about the same as last year, but the yield will be much greater. Reports from the northern part of the State indicate that the crop will be very large, and that the harvest will begin about the 15th inst

SOUR BREAD.

Sour bread is caused by poor yeast, or an excessive fermentation in the dough. Sour biscuits are caused by the use of adulterated, impure, or improperly compounded baking powder. Both are unwholesome, producing intestinal derangement, indigestion, etc.

Complaint of sour bread, biscuit, and pastry is frequent in those who use the cheap baking powders, and also that they leave a taste in food in which they are used a disagreeable, bitter taste. The sour bread and biscuit resulting from the use of Price's Baking Powder is so general that he admits the defect, which he ascribes to an excess of cream of tartar!

This excessive of acid and the bitter taste attending the use of Price's and all other cheap, low-grade baking powders, are due to the fact that such powders are not properly combined, and that the ingredients used are impure. The cream of tartar of the article used by Price and others is adulterated from five to twenty per cent. They do not know how much lime it contains, and hence are unable to mix it with the alkali or soda in proper proportions. As high as 11.81 per cent of lime has been found by Prof. Johnson in Price's Baking Powder, due to these causes. The result is as Price admits, an acid reaction which he cannot prevent, and which renders the bread, biscuit, or pastry sour and disagreeable, or a combination of lime and dirt, imparting a bitter taste to the food. Any baking powder that does this is unfit for use.

There can be no acid or bitter taste or reaction where a perfectly made, pure baking powder, like the "Royal," is used. In the use of the Royal no residuum is left, and the food raised by it is always sweet, light, and wholesome, and notoriously free from the peculiar tastes complained of. The reason of this is because it is composed of nothing but absolutely pure materials, scientifically combined in exactly the proper proportions of acid and alkali to act upon and destroy each other, while producing the largest amount of raising power. We are justified in this assertion from the unqualified statements made by the Government chemists, who after thorough and exhaustive tests recommended the "Royal" for the government use because of its superiority over all others in purity, strength, and wholesomeness. There is no danger of sour bread or biscuit where it alone is used.

Meeting of the Republican State Central Committee—The Location Fixed.

Glowing Reports from All Quarters—No Grease Substitute—The Prohibitionists.

Interior Banter—Lem Snelling's Reappearance—Where and When the Campaign Will Begin.

THE LIVE PEOPLE.

The first gun in the Republican campaign of this State was fired yesterday, when the Republican State Central Committee met to arrange the campaign. Presently the men who are to lead the Republican armies of the great State of Illinois, for, as usual, a large delegation of patriots had delegated themselves to be spectators and shout before the battle itself, if the performers deserved that compliment, were present. The Republican campaign in Illinois is to be a campaign. The word ought to be enough for any one who knows the enthusiastic way Illinois Republicans go into a campaign.

The committee was composed as follows: John W. Bunn of Springfield, H. C. Parker of Rock Island, George E. White of Chicago, Asa C. Hall of Lewistown, E. D. Preston of Mattoon, Gen. O. H. Rogers of Metropolis, at-large delegate, and to the following district members: Russell, Fifty Ward, Chicago; Hon. Capt. James A. Rumb, Chicago, proxy for Bartholomew Smith; Rhoads, John C. Smith, Colonel, with credentials for Appellate Court Clerk; Pitt, C. A. Partridge, Washington; Gen. R. M. Sloan, Warren (Thornton's proxy); C. W. Thompson, Princeton; Gen. E. D. Hawkins, Audubon; Ruth, Frank Hitchcock, Ottawa; Sherrill, Dayton Bullets, Monmouth; Pavitt, Colonel Peters, Carrollton; Farnsworth, J. O. Davis, Bloomington; Ellsworth, J. H. Clark, Kankakee; Butterworth, Thomas B. Bowling, Joliet; Townsend, Edward Wheeler, Marion, and Thomas W. Hunt of Pulaski, the district member from the Cairo district, were absent, expecting the Forty-fourth Democrat District Convention at Paducah, while Lt.-Col. Cullom of Shelbyville, the district member from the Eighth, was at home looking after his County Convention. Gen. Rawlins of Chicago, from the First, a Prince of Wales, a member-at-large, and R. W. Freeman of Galesburg, from the Seventh, for the reason of the year and more county conventions to run their delegates, the attendance was quite large. Mr. Rawlins's absence occasioned some little comment, but was fully explained by subsequent developments.

THE MEETING.

Among the members who were absent when the hour fully and attempted participants in the convention of enthusiastic spectators to Secretary Congressman Bunn, Harris, Adams, Gen. Rogers, Kennedy and Hall of Chicago, who, with Gen. Rogers, Secretary of the Interior Lamont, Gen. Sheridan, Gen. Logan, Gen. Oglesby, Gen. Fuller, Gen. Black, Gen. Cullom, Gen. Rawlins, Gen. Hitchcock, Gen. Farnsworth, Gen. Hawkins, Gen. Bluford, Gen. Sherrill, Gen. Ruth, Gen. Pavitt, Gen. Ellsworth, Gen. Bowling, Gen. Townsend, Edward Wheeler, Marion, and Thomas W.
